## Job Seekers Attend Annual Job Fair

More than 750 job hopefuls attended the 16th Annual Blueprint for Workplace Success Youth and Young Adult Job Fair at Rogers Park in Inglewood on May 4. The South Bay Workforce Investment Board (SBWIB) hosted the event. Students from 18 schools throughout the South Bay area, including Hawthorne, Carson, Torrance and Redondo Beach, were selected by their school's career counselors so they could meet face-to-face with potential employers. ## Council Hears L.A. Metro Expansion Plans Including Sales Tax Increase

By Derrick Deane

Hawthorne will be seeing mass transit extensions and improvements in the near future according to an ambitious expansion plan that was released by Los Angeles Metro in March.

At this past Tuesday's City Council meeting representative Danielle Valentino spoke to the council about deadlines, some of the plans that will affect the city, and what kind of income Hawthorne might see from upcoming Metro plans.

One of the projects that would be funded is what is being known as the Airport Connector Project. The plan would call to build a transit station at 96th Street that would connect to the end of the Green Line and Crenshaw/LAX trains. That transit station would serve as a transition point to the Los Angeles World Airports people mover shuttle to get people from the station to the airport.

"It would basically be the first ever linkage to the airport via that automated people mover," Valentino said. "That's all mentioned in the draft expenditure plan that obviously cuts through Hawthorne and is actually one of the top priorities listed in the draft expansion plan for the city."

Hawthorne would also benefit from local return dollars.

"What you do get through these tax measures is some substantial local return dollars that would fund infrastructure and road improvements," Valentino said. "All of that money does come through Metro and much of that, if you apply for it, you can earn for your local city."

Valentino says that earlier in the day, L.A. Metro was crunching the numbers and came up with some estimated totals in return dollars for Hawthorne. If the ballot measure was approved, the city of Hawthorne would be getting \$486.5 million over the course of 40

years in local return money.

If the ballot were to not pass or if the Metro board decides not to pursue the ballot measure, the city would still be getting about \$321 million in local return dollars.

"I think that local return dollar piece is something that cities really gravitate toward, wanting to know about," Valentino said.

*"What you do get through these tax measures is some substantial local return dollars that would fund infrastructure and road improvements."*

Valentino added that the city has already seen the benefits of Measure R money. Hawthorne has reportedly already expended \$17.27 million between 2010 to 2015 for projects like transit operations, street repair, helping to fund active transportation and also helping to plan local engineering and transportation projects in the city.

"That's significant and that's just under Measure R," Valentino said. "That's an example of how local sales tax help fund what you do."

Valentino also pointed to the Rosecrans Ave. Widening Project, which costs about \$2.1 million, is also being funded through Measure R.

"That's another example where Measure R helped and the sales tax helped the city get that work done," Valentino said, also pointing out the Hawthorne Boulevard improvement plan that stretched from El Segundo Blvd. to Rosecrans Ave. That project cost about \$7.5 million of Measure R money.

Another part of the draft expansion plan is to extend the Green Line into Torrance, but that part of the plan would not take place until

the "second 15 years," or beginning in 2033.

"There has been a very active effort underway since March to release that plan for public review and for all of our stakeholders to be reading that plan, reviewing it, and weighing in," Valentino said.

Valentino says that the South Bay city governments have been very active in reviewing the plan and communicating with Metro what they appreciate in the plan and what they hope would be changed and revised.

"At the same time we are asking all of our cities as individual jurisdictions to equally weigh in on the plan and work with their council of governments and staff to make sure that that plan reflects exactly what that city would like to see," Valentino said.

May 20 is the deadline Valentino is asking all cities and staff to provide written feedback on the plan so that when the June Board meeting occurs, Metro has had ample time to review the comments from the cities their plan will affect.

The meeting would ultimately decide if the Board will place a ballot measure in November 2016 that would include a half-cent sales tax increase in addition to the extending the existing Measure R tax.

Measure R was a half-cent sales tax on all taxable sales made in Los Angeles County for thirty years in order to pay for transportation projects and improvements that was approved by voters during the 2008 elections.

"It's essentially an extension and augmenting of the existing sales tax that we might potentially be asking the voters to weigh in on in November," Valentino said.

Smart Ways To Boost Your Home’s Energy Efficiency

(BPT) - You wouldn’t know it with the mild weather we’re having this winter, but spring is fast approaching. Building industry experts say now is an ideal time to carefully consider and prioritize home renovation plans. Most homeowners will opt to address the cosmetic features of a home when completing a renovation project to add comfort and value. However, it’s often what you can’t see that can have the biggest impact.

Before diving into any home renovations, consider the “skeleton” of your home, known as the building envelope, rather than just the cosmetic features such as chrome fixtures or granite countertops. For instance, high efficiency windows are an excellent investment for any home renovation to help drive down excessive energy waste and high utility costs. The U.S. Department of Energy suggests that traditional windows contribute to as much as 10 percent of the total amount of air escaping from a typical home, while improperly sealed doors can contribute a further 11 percent.

Another easy renovation idea to consider is

researching and selecting high efficiency, green materials in commonly used rooms, such as bathrooms. Low flush water systems, solar hot water systems and even small-scale geothermal energy systems, as well as Energy Star-rated appliances, can reduce energy consumption and

your overall carbon footprint while maintaining a comfortable, enjoyable living space for you and your family.

Investing in an effective insulation solution also can make a noticeable impact on reducing household utility costs. Building experts suggest

that homeowners completing a home renovation should be as involved as possible in determining the best insulation type for their home. This means that homeowners should actively research the types of materials available and how well they perform over the long term.

Spray foam insulation, available from Icynene, is growing in popularity among homeowners since it is an energy-efficient insulation material that delivers year-round benefits. Spray foam insulation works well in all types of homes across the country, regardless of climate, to curb air loss and retain the conditioned air within your home to maintain a consistent, even temperature.

Spray foam insulation performs for the life of the property, ensuring that homeowners can enjoy comfortable indoor temperatures all year round without overrunning their heating and cooling equipment and accumulating high heating and cooling costs every month. More information on the effectiveness of spray foam insulation is available online at [www.icynene.com](http://www.icynene.com). •

In the event tender other than cash is accepted, the Trustee may withhold the issuance of the Trustee's Deed Upon Sale until funds become available to the payee or endorsee as a matter of right. The property offered for sale excludes all funds held on account by the property receiver, if applicable. If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee and the successful bidder shall have no further recourse. Notice to Potential Bidders If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a Trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a Trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this

information. If you consult either of these resources, you should be aware that the same Lender may hold more than one mortgage or Deed of Trust on the property. Notice to Property Owner The sale date shown on this Notice of Sale may be postponed one or more times by the Mortgagee, Beneficiary, Trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about Trustee Sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. RESOLUTION NO. 7807 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HAWTHORNE, CALIFORNIA DECLARING ITS INTENTION TO LEVY STREET LIGHTING ASSESSMENTS FOR FISCAL YEAR 2016-2017 AND SETTING TUESDAY, JUNE 14, 2016 AT 6:00 P.M. AS THE TIME AND DATE OF A PUBLIC HEARING

WHEREAS, the City Council of the City of Hawthorne, California, has adopted Resolution No. 5178 on the 26<sup>th</sup> day of April 1982, forming the Street Lighting Maintenance District of Hawthorne, pursuant to the provisions of Section 22585, et. seq. of the Streets and Highways Code; and

WHEREAS, on April 12, 2016, the City Council ordered the preparation of an engineering report setting forth estimated street lighting assessments for fiscal year 2016-2017; and

WHEREAS, the required engineering report and estimates have been completed and filed with the City Clerk and approved by the City Council.

NOW, THEREFORE, IT IS HEREBY RESOLVED by the City Council of the City of Hawthorne, California as follows:

Section 1. That it is the intent of the City Council to levy and collect assessments within the assessment district described in the City Engineer's Report, attached as Exhibit A, dated April 28, 2016 for the fiscal year 2016-2017, except that there shall be no assessment upon a Federal or State government agency, or another local agency.

Section 2. The improvements in the district consist of the public and traffic signal lighting facilities now or which may hereafter be constructed or installed, and the maintenance and servicing thereof.

Section 3. The district is designated as the Street Lighting Maintenance District of the City of Hawthorne and its general location is within the boundaries of the City of Hawthorne.

Section 4. A full and detailed description of the improvements, the boundaries of the assessment district, its zones and the proposed assessments upon assessable lots and parcels of land within the district are contained in the City Engineer's Report of April 28, 2016, which report is incorporated by reference hereby as though fully set forth herein.

Section 5. That, pursuant to Section 22625 of the Streets and Highways Code of the State of California, on Tuesday, June 14, 2016 at 6:00pm, a hearing will be held by the City Council of the City of Hawthorne, California, regarding the levy of the proposed assessment. The hearing will be held in the City Council Chambers, located at 4455 W. 126<sup>th</sup> Street, Hawthorne, CA 90250.

Section 6. That the City Clerk shall give notice of said hearing causing the Resolution of Intention to be published pursuant to Streets and Highways Code Section 22626.

## Local Tracksters Advance to CIF Prelims

Morningside High's Adarrus Wilson pulls ahead as he heads to win the 100-meter dash in 11.12 seconds at last Friday's Bay League Track and Field Championships. Photo by Joe Snyder.

By Joe Snyder

Last week was the CIF-Southern Section League Track and Field Championship Week and several local athletes were able to place high enough with good enough marks or times to advance to this week's Southern Section Prelims to be held at various sites.

In the Ocean League Championships last Thursday at Culver City High, Lawndale had some league champions, behind Jaelin Walker who won the long jump and high jump. Walker captured the long jump with a very good leap of 22 feet, three and a half inches and the high jump at five feet, 10 inches. Walker also placed third in the triple jump at 41-7. Bryant Perkinson was able to defend his league title in the triple jump at 43-9. He also finished second in the long jump with a leap of 22-2 and made the Southern Section Division II Prelims in both events. Erick Willis, along with Walker, had a 5-10 high jump but had to settle for a second place due to Walker

having fewer misses. Both move on to the Southern Section Division II Prelims. Kiyaam Cooksey captured the 110-meter high hurdles clocking 15.03 and took second in the 300 intermediates in 39.94 to qualify for CIF in both events. Jonathan Blackman was second in the 100-meter dash timing 11.13 and finished fourth in the 200 in 21.87 seconds. Lawndale's 4x100-meter and 4x400 relays both recorded second place finishes. Its 400 relay squad of Cooksey, Blackman, Perkinson and Demarjae Gilmore was clocked at 43.89 to finish behind winner Culver City (43.11). Closing the meet, the Cardinals 1,600 relay team of Cooksey, Jona Hian, Willis and Jacob Khu placed second at 3:26.94. Santa Monica, behind nationally ranked 400-meter runner Marcel Espinoza, won the race clocking 3:26.17. Espinoza also won the 200 and 400 in the meet.

For the girls, Lawndale's Destiny Jones advanced after taking third in the high jump,

leaping 4-8. The Lady Cardinals also had a second place finish by Ashley Calloway in the shot put with a toss of 30-4. Teammate Kimberly Romero was third at 29-9. El Segundo's Tatiana Taylor won the event throwing 33-4.

"We're hoping to send athletes in at least four events to the championship meet," Lawndale High assistant coach Demitre Howard said. "We had a few close losses. Our boys took second (behind champion Santa Monica) in league. Honestly our kids excelled. We lost some close dual meets. (The Cardinals took third, behind first place Santa Monica and runner-up Culver City in the Ocean League.)"

Hawthorne High's best showing was by Kishawn Berry in the boys' 100-meter dash where he finished third timing 11.43 but it was not good enough to qualify for the CIF-Southern Section Division II Prelims. Culver City's Chalil Hooper won the 100 in 11.0, followed by Blackman.

The Southern Section Division II Prelims will be at Moorpark High, starting at 8 a.m. Saturday. The finishers in each event move on to the Southern Section Divisional Championships on May 21 at Cerritos College with the field events beginning at 11 a.m. and the running events at 1 p.m.

### BAY LEAGUE

Morningside's boys and Inglewood's girls had a few top showings in last Friday's Bay League Track and Field Championships at Redondo High. Keying the Monarchs was Adarrus Wilson. Wilson won the 100-meter dash at 11.12 seconds and was a close second behind Redondo's Jerone Jackson clocking 22.66 in the 200. Jackson won the 200 in 22.64. The Monarchs also had a league champion by Darren Morgan in the high jump at 6-4. All move on to the CIF-Southern Section Division IV Prelims at Estancia High in Costa Mesa Saturday, beginning at 8 a.m.

For the Lady Sentinels, sophomore Tajanae Nettles placed second in the 400 timing 59.07. Winning the race was Mira Costa's Jaylah Herron in 57.83. Nettles also helped Inglewood's 4x100-meter relay finish second (also behind Mira Costa) clocking 49.31. The Mustangs won the race at 48.91. Nettles and the relay move on to the CIF-Southern Section Division III Prelims Saturday at 8 a.m. at Trabuco Hills High in Mission Viejo. All divisional finals are at Cerritos College, beginning 11 a.m. on May 21.

### CULVER CITY SWEEPS HAWTHORNE

Hawthorne High's baseball team found first place Culver City too much to handle as the Centaurs easily sweep the Cougars last week. At Culver on May 3, the Centaurs rolled over the Cougars 9-2. At Hawthorne last Thursday, Culver blanked the Cougars 8-0.

On May 3, Brandon Brown drove in a run with a base hit. Daniel Sanchez tripled and scored a run.

The Cougars, who fell to 1-7 in the Ocean League, have a league rivalry two-game series against Lawndale this week. After visiting the Cardinals last Tuesday, Hawthorne hosts Lawndale today at 3:15 p.m. •

## Looking Up

## Planet Nine: A World that Shouldn't Exist

By Bob Eklund

Earlier this year scientists presented evidence for Planet Nine, a Neptune-mass planet in an elliptical orbit 10 times farther from our Sun than Pluto. Since then theorists have puzzled over how this planet could end up in such a distant orbit.

New research by astronomers at the Harvard-Smithsonian Center for Astrophysics (CfA) examines a number of scenarios and finds that most of them have low probabilities. Therefore, the presence of Planet Nine remains a mystery.

"The evidence points to Planet Nine existing, but we can't explain for certain how it was produced," says CfA astronomer Gongjie Li, lead author on a paper accepted for publication in the *Astrophysical Journal Letters*.

Planet Nine circles our Sun at a distance of about 40 billion to 140 billion miles. This places it far beyond all the other planets in our solar system. The question becomes: did it form there, or did it form elsewhere and land in its unusual orbit later?

Li and her co-author Fred Adams (University of Michigan) conducted millions of computer simulations in order to consider three possibilities. The first and most likely

involves a passing star that tugs Planet Nine outward. Such an interaction would not only nudge the planet into a wider orbit but also make that orbit more elliptical. And since the Sun formed in a star cluster with several thousand neighbors, such stellar encounters were more common in the early history of our solar system.

However, an interloping star is more likely to pull Planet Nine away completely and eject it from the solar system. Li and Adams

find only a 10 percent probability, at best, of Planet Nine landing in its current orbit. Moreover, the planet would have had to start at an improbably large distance to begin with.

CfA astronomer Scott Kenyon believes he may have the solution to that difficulty. In two papers submitted to the *Astrophysical Journal*, Kenyon and his co-author Benjamin Bromley (University of Utah) use computer simulations to construct plausible scenarios for the formation of Planet Nine in a wide orbit.

"The simplest solution is for the solar system to make an extra gas giant," says Kenyon.

They propose that Planet Nine formed much closer to the Sun and then interacted with the other gas giants, particularly Jupiter and Saturn. A series of gravitational kicks then could have boosted the planet into a larger and more elliptical orbit over time.

"Think of it like pushing a kid on a swing. If you give them a shove at the right time, over and over, they'll go higher and higher," explains Kenyon. "Then the challenge becomes not shoving the planet so much that you eject it from the solar system."

That could be avoided by interactions with the solar system's gaseous disk, he suggests.

Kenyon and Bromley also examine the possibility that Planet Nine actually formed at a great distance to begin with. They find that the right combination of initial disk mass and disk lifetime could potentially create Planet Nine in time for it to be nudged by Li's passing star.

"The nice thing about these scenarios is that they're observationally testable," Kenyon points out. "A scattered gas giant will look like a cold Neptune, while a planet that formed in place will resemble a giant Pluto with no gas." •

Scout

**Linden** is polite, affectionate, charming, and sometimes a bit shy. She likes to be up high in her cat tree looking out at the world. Like her sisters Scout and Marvel, she is a champion purrer. They are her best friends and if the house is quiet that means they are sleeping together in your sock drawer. Linden would be a great sister cat to a social, easy-going kitten or young adult who could be my mentor. Her preference, of course, would be to go with her siblings, but she is realistic about someone adopting three kittens at once!

Linden

**Goldie** was an abandoned kitten, just appearing one day in her foster's garden. She is very cute and quite affectionate. As a kitten teenager, Anabel is very playful. Her ideal new home for her would be with a kitty playmate, preferably not with small children or a dog.

**Marvel**

Anabel

On Saturdays, we have adoptions from

**Goldie**

noon to 3:30 p.m. in Westchester at 8655 Lincoln Blvd. just south of Manchester Ave. and also in Mar Vista at 3860 Centinela Ave, just south of Venice Boulevard. Our website lists additional adoption sites and directions to each location. Be kind. Save a life. Support animal rescue. •

THE YELLOW DOG PROJECT.com

If you see a dog with a **YELLOW RIBBON** or something yellow on the leash, **this is a dog who needs some space**. Please do not approach this dog with your dog. Please maintain distance or give this dog and his/her person time to move out of your way.

There are many reasons why a dog may need space:

- HEALTH ISSUES
- IN TRAINING
- BEING REHABILITATED
- SCARED OR REACTIVE AROUND OTHER DOGS

**THANK YOU!**  
Those of us who own these dogs  
appreciate your help and respect!
