SBWIB Hosts Awards Breakfast

Inglewood Mayor James T. Butts presents the prestigious Esther Williams Award of Excellence to CSU Dominguez Hills President, Dr. Willie Hagan. Accepting the award on behalf of Dr. Hagan is Provost Vice President of Academic Affairs Ellen Junn. The presentation was made during the 2014 Alumni Awards Breakfast put on by the South Bay Workforce Investment Board (SBWIB) Oct. 23rd at the Ayres Hotel in Hawthorne. The award honors individuals who strive to improve the quality of life in our communities through their professionalism and lasting contributions. Residents Reelect Mayor James T. Butts

By Cristian Vasquez

Residents from the City of Inglewood overwhelmingly voted to give Mayor James T. Butts another term as the city’s mayor.

Mayor Butts garnered 10,576 ballots, 83 percent of the vote, on election night beating the closest challenger Mike Stevens who received 1,204 votes [9.49 percent] in favor of his bid for mayor. Also in the bid for mayor were long-time, active resident Gilbert A. Mathieu who gained 567 votes [4.47 percent] and Sandie Crisp who received 334 votes [2.63 percent].

With only 12,681 out of 52,596 registered voters making it to the polls, voter turnout wasn’t the highest in the city’s history but voters made it clear that they were satisfied with the job that Mayor Butts has done since being voted into office.

The Mayor’s first year in office was filled with plenty of opposition, which was voiced both by residents present at the city council meetings and by then newly elected Councilman Mike Stevens. Stevens, who was very critical of Mayor Butts’ decisions and ideas, served only one term and was voted out and replaced by Councilman George Dotson to represent District 1. Stevens bid for mayor this year fell short by a long shot.

Mayor Butts, who holds a Bachelor of Science (California State University at Los Angeles) and a Masters Degree in Business Administration (California Polytechnic University at Pomona), has become a popular figure in the city as the structural deficit has improved since his time in office.

Furthermore, Mayor Butts has received plenty of attention and is credited as being responsible for spearheading the efforts to

renovate the iconic Forum through, which is now owned by Madison Square Garden and which has become a music destination venue for many top artists. The new and improved Forum even hosted this year’s MTV Awards, which are traditionally hosted in New York.

In addition to the project with the Forum, Mayor Butts was active in working alongside Los Angeles Metropolitan Transportation Authority [MTA] authorities in order to get the Crenshaw/LAX Transit Project underway, and which broke ground January of this year. The 8.5-mile light-rail line consist of eight stations which will serve the Crenshaw District, Inglewood, Westchester and surrounding areas. Stations in Inglewood will include Florence/ West, Florence/La Brea and Florence/Hindry.

When Mayor Butts won his first bid for the mayor’s office he beat incumbent Danny Tabor by 776 votes. At the time the City of Inglewood was going through a difficult political situation, which blew over when long-time Mayor Roosevelt F. Dorn pleaded guilty plea to a misdemeanor conflict-of-interest charge. Dorn left office in 2010 for his connection with accepting a \$500,000 loan through a city-housing program, which led to then Councilman Daniel Tabor running and winning the mayor’s seat during a special election in 2010. Mayor Tabor’s tenure was short lived as Mayor Butts challenged him less than a year later and won at the height of the city’s political turmoil.

When elected to office, Mayor Butts became responsible for a city was that was operating at an \$18 million deficit and which was watching its savings dwindle away each year. Mayor Butts, who has a combined 39 years experience in public safety, municipal government

and education declared his commitment to overhauling the city’s finances.

Mayor Butts’ experience with the City of Inglewood began when he served the residents almost 20 years as an Inglewood Police Officer. From 1980-1990 he was promoted five times until and he would earn the rank of Deputy Chief of Police. In 1991 Butts was selected to become Chief of Police for the City of Santa Monica where he served for 15 years.

As the Santa Monica Chief of Police the city experienced a 64 percent drop in crime as well as a 50 percent citizen complaints dip. Police liability payouts also dropped by 99 percent. Mayor Butts also served as an Assistant General Manager (Deputy Executive Director) of the Los Angeles World Airports, including LAX, where he was at the helm of public safety and counter terrorism. In this position he was responsible for a budget of \$116 million dollars and 1,100 employees.

Mayor Butts was elected as the city’s 12th mayor in Inglewood on Jan. 11, 2011. •

Low Voter turnout did not keep Mayor James T. Butts from winning his night for reelection on Tuesday night. Mayor Butts, who earned 83 percent of the vote, beat the three challengers Mike Stevens, Gilbert A. Mathieu and Sandie Crisp. Photo by Cristian Vasquez

One Man’s Opinion

Mrs. Chong Goes to Washington

By Gerry Chong

My mother was a warm and loving mom, but she was a banker who could run numbers in her head and tell you where every dime of her household budget went, and she would not suffer fools. If she had read that government had reached two awful milestones, she would have had a seizure. The headlines said that the Federal government had reaped an all-time high of \$3 trillion in tax revenue this year, but our spending was so out of control that our debt had also crossed a new threshold, topping \$18 trillion! \$18 TRILLION!

Once she settled down, she would have concluded that if Democrats win the Senate on November 4th, this nonsense of record tax collection and exploding debt will continue. The only hope would be for Republicans to win and send her to Washington to fix the problem.

Her first step would be to freeze spending: program by program, department by department, freeze it all.

Second, she would have Congress form a bipartisan joint committee, similar to a military base closure committee, to go through the budget, line by line, and identify every program whose cost exceeds its benefits. The Congress as a whole would vote on the committee’s recommendations on an up-or-down basis without amendments or debate.

Third, she would consolidate duplicated programs in areas such as poverty and education, passing the budgeted sums to the individual states to use as their local communities require and eliminating the Federal staffing attendant to each program.

Fourth, she would require that, where appropriate, government programs would be evaluated to see if private sector bidding would be more cost effective than performance by the bureaucracy. As a corollary, every private sector contract must be bonded and competitively bid with specific quality, schedules and fixed cost. Any contractor who breaches more than one contract would be barred from bidding on future government contracts.

Fifth, remove every department’s procurement authority in order to mitigate the influence of lobbyists and other special interests, leaving Purchasing in the hands of professionals.

Sixth, the Office of Management and Budget should have one function only: to monitor all Federal contracts, with full audit authority.

Seventh, all programs should have a defined sunset provision. Any extension should be treated as a new bill, requiring renewed Congressional debate and Presidential approval.

Eighth, the President should have a line-item veto, but should not have the authority to add funding to any bill.

Mom was also a realist who would not touch the issues of a Balanced Budget Amendment or income tax reform because those are political quagmires that would suck the wind out of all reform proposals, and result in continued political paralysis. Like Mr. Smith who went to Washington, there’s an army of smart and principled Moms armed with brooms who have better ideas than politicians. So ink up like a sailor with a heart and Mom tattoo on your shoulder and flash it on Election Day. •

Another Man’s Opinion

Voter ID Laws Do More Harm Than Anything

By Cristian Vasquez

The issue of voter ID laws has floated in the news for years now and much of the rhetoric behind justifying such legislation sounds good but in reality is bad. To date I have not seen one clear-cut example of a state that has such rampant voter fraud that voter that a new voter identification law was needed to maintain the integrity of our democratic process, from the voters’ side. However, I keep reading articles about Americans in different states that have been denied the right to vote because of new voter ID laws, even though they are law-abiding citizens who have been going to the polls for years.

The most recent article I came across is from a man named Eric Kennie. Kennie is from Austin, Texas and in his 45 years on this earth he ha never lived outside of Austin. Actually, theguardian.com reports that Kennie has never travelled outside of the state, nor has he ever left his native city. Kennie has been an active voter in Texas since he turned 18 but because of the new voter ID law approved by the state’s Republican leadership he and an estimated 600,000 legally registered voters will be unable to vote. Under the new law a voter must meet certain photo identification requirements and it has been determined that Kennie fails to do so.

I won’t argue against requiring people to provide a legitimate identification card prior to voting. However, if people like Kennie have been voting for years, why are their former forms of identification no longer acceptable? This new law is so absurd

that Kennie’s voter registration certificate, which was a valid document to vote, is now considered insufficient in Texas to cast a ballot. Furthermore, such laws make it difficult for young people to vote because students usually don’t have state issued identification cards. In order to obtain an ID, one needs a birth certificate but to obtain said document, the petitioner needs a state-issued ID. Seems like a convenient way to keep people from voting.

Every article I read, from several sources, indicates the same thing: law-abiding citizens lose their right to vote with these new laws for no legal reason. Affected by such requirements are usually people who are already disenfranchised: the poor and minorities. Our country already has embarrassingly low voter turn out and with voter ID laws, the ability to vote becomes restricted and will only cause less people to try and become part of the voting process.

There is nothing wrong with setting new standards but to deny a people like Kennie the right to vote without any wrong doing on his behalf is wrong. For anyone who argues that people like Kennie should just abide by the new regulations, you’re missing the point. People like Kennie have done nothing wrong to lose the right to vote, so they should not have fix or modify their behavior because some state legislators found a way to eliminate potential against votes. If Texas is so worried about the two registered cases of voter fraud in 20 million votes cast during the past two years, there are better solutions than disenfranchising 600,000 people. •

News for the ‘City of Good Neighbors’

From City Clerk Norb Huber

NEXTDOOR

There is a new way to do neighborhood watch using technology. This is the email current users of Nextdoor received from the Hawthorne Police Department:

“We are pleased to announce that starting October 31, the Hawthorne Police Department will be utilizing Nextdoor to facilitate virtual neighborhood watch and foster neighbor-to-neighbor communications. Nextdoor is a tool for us to effectively share information on crime prevention and safety, public events, and emergency notifications. You can expect to receive local crime and safety updates from the HPD on Nextdoor. Please be assured that your website remains PRIVATE. HPD staff will NOT be able to see any of the content on your neighborhood website except for the direct replies to our posts. Please be aware that Nextdoor is not the appropriate way to request emergency services, police services, report criminal or suspicious activity, file a report, etc. If you require emergency services, please call 911. We look forward to connecting with you on Nextdoor to build stronger, safer neighborhoods throughout ---Community Affairs Unit Hawthorne PD” I registered today for Nextdoor and it was easy. I live in the Ramona tract so there were already 100 neighbors signed up for Nextdoor. I surfed around the site and found some interesting posts. If you are computer suave, then you will not have any trouble logging on and staying informed as to what is going on in your neighborhood.

ON-LINE PARK AND RECREATION REGISTRATION

The City of Hawthorne also announces that now you can register on line for any of the classes or workshops that the parks and recreation department offers throughout the year. Now you don’t have to drive over to the Memorial Center to pay for swimming lessons. You don’t have to go and get a form to fill out to sign your child up for youth basketball. It is all on line. You can make your registration payments online also.

DID YOU VOTE?

Less than half of the registered California voters were expected at the polls this past Tuesday. It is sad that so many people stay away from voting except for voting every four years for the president. There are so many other positions that are just as important as electing our president. The direction of our city, county, state are all decided upon during these general elections. As city clerk, I encourage everyone to take an interest in their government, be involved and VOTE.

VETERANS DAY

The vets wanted their holiday to stay on November 11. So, this year we have a rare Tuesday holiday. If you know a vet, express your gratitude for what they have done for our country. The sacrifices that these men and women have made by placing country ahead of self, is something to really celebrate. We can not honor them enough.

City Hall and most other government offices will be closed that day.

HISTORICAL SOCIETY TO MEET

The next meeting of the Hawthorne Historical Society will be on Monday, November 17 beginning at 6:30 p.m. at the Hawthorne Museum located at 12622 S. Grevillea Avenue. It is located across the parking lot from the mail public library. We will be having a guest speaker and discussing the start of our efforts to catalog the historical landmarks, building, signs and other historical locations. We want to help preserve our heritage in the City of Good Neighbors.

SANTA IS COMING TO HAWTHORNE

Saturday, December 6 is the date for Santa

to arrive in Hawthorne at the Hometown Holiday Celebration and Tree Lighting to be held at the civic center. Kids, young and old alike, are invited to attend. It’s always fun to see the young kids faces light up when Santa arrives.

JUST IN CASE YOU MISSED THE SPORTS NEWS

On the sports front, my SF Giants captured their third world series championship in the past five years. The Lakers are still winless. USC and UCLA football teams are heading towards their annual showdown as the highlight of their seasons. Neither team will be going to a major bowl game this year. It’s still fun to watch college sports for the unpredictability of each game.

THANKSGIVING IS COMING

Just three weeks before we get to dig into the turkey feast. There are many organizations gathering food to feed the less fortunate. This time of the year is a time for giving. We have so much to be thankful for. Maybe find a needy neighbor and help them out in a small way. I know they would appreciate it. •

THURSDAY, NOVEMBER 13

• South Bay Cities Council of Governments (SBCCOG) annual free Holiday Light Exchange will take place on November 13 and 14 for Southern California Edison (SCE) and Department of Water and Power (DWP) customers. Lights will be exchanged at the SBCCOG’s Environmental Services Center located at 20285 S. Western

Avenue, Suite 100, Torrance, CA 90501.

SCE and DWP customers will be able to trade in one working string of old electricity-guzzling incandescent holiday lights for one new, energy-efficient LED string. Old strings will be taken off the grid forever and recycled as e-waste. (Please bring utility bill or driver’s license). For more information call (310)371-7222. •

 - 1 lemon, zested
 - 1 clove garlic, minced finely
- 3 tablespoons minced pecans

Why The Cheapest 'Retirement Investment' Is Also Critical To Your Health

(BPT) - You maxed out your 401(k) every year you worked, invested wisely and planned carefully in preparation for retirement. Perhaps you even researched your Medicare options and you know exactly what health and drug plans you'll choose. But if you're like the majority of other Americans approaching - or in - retirement, you've likely overlooked a critical aspect of retirement planning and investment: dental insurance.

By 2030, 72 million Americans will be 65 and older, the Administration on Aging predicts. Currently, 70 percent of American seniors don't have dental coverage, according to a report in the Journal of Dental Education. Medicare does not provide dental coverage, so when their employer-sponsored dental insurance ends, many seniors discontinue dental coverage - and dental care -altogether. Yet dental insurance is one of the cheapest "retirement investments" seniors can make. And the health costs of not having dental care can be devastating.

"Dental health is a critical issue for senior citizens," says Dr. Jed Jacobson, chief science officer of Renaissance Life & Health Insurance, and the director of

the Renaissance Dental Research and Data Institute. "Discontinuing dental insurance is risky at best. The absence of regular preventive dental care can have permanent, devastating effects on a senior's overall health and well-being."

Research shows that oral health is linked to overall health, especially for senior citizens. Preventive dental care or regular dental cleanings can help eliminate the mouth-borne bacteria that can compound a number of age-related health concerns. Many of the medications seniors take can lower the amount of saliva they produce, making them more susceptible to infection in the mouth. Bacteria that develops in the mouth can spread throughout the body, Jacobson notes, causing or worsening problems such as:

- Cardiovascular disease - Bacterial endocarditis, a serious infection inside the heart, is caused by bacteria that normally develops in the mouth.

- Infections in prosthetic joints - Joint infection is one of the leading causes of failure in prosthetic joints, and can lead to costly, painful and risky surgery. Bacteria

from the mouth can enter the bloodstream and cause joint infections.

- Diabetes - Nearly 12 million seniors have diabetes, and untreated periodontitis - a common oral disease - can make it harder to control blood sugar levels.

- Oral cancer - Age is a primary risk factor for many forms of cancer, and the median age for diagnosis of oral cancer is 62, according to the National Cancer Institute. Oral cancer can cause serious debilitation, disfigurement and even death - in fact oral cancer has one of the highest mortality rates of any type of cancer. It is also the costliest cancer to treat, ranging from \$100,000 to \$250,000, research by the Renaissance Dental Research and Data Institute reveals. Preventive dental care, such as routine checkups, is the best way to catch oral cancer in its earliest, most treatable stages.

"Poor dental health does not have to be a reality of retirement," Jacobson says. "Many debilitating oral health issues can be prevented by regular dental examinations."

Even though Medicare doesn't cover dental care, the open enrollment period (Oct. 15 to Dec. 7) is a good time for retirees to

think about dental insurance, Jacobson says. While seniors receiving Medicare can make changes to their health and drug coverages only during open enrollment, they can enroll in a private dental insurance plan at any time.

Typically plans like those offered by Renaissance Dental cover preventive care for an affordable premium - as low as \$25 per month. Insured seniors can visit any dentist they choose, but they can save even more by visiting a dentist from Renaissance's nationwide network of more than 200,000 preferred provider locations. The company specializes in retiree dental care and is licensed to sell group and individual policies in all 50 states. Visit www.rensmile.com or call (888) 791-5995 to learn more and to obtain plan pricing information.

"Research shows that patients are 50 percent more likely to schedule regular dental checkups when they have dental insurance," Jacobson says. "By continuing their dental benefits into retirement, and getting regular dental screenings, seniors can take advantage of one of the simplest, most cost-effective and potentially life-saving measures available to preserve their health during retirement." •

Looking Up

Astronomers Observe Stellar Fireball with Unprecedented Clarity

Based on press release from Georgia State University, provided by Bob Eklund

Astronomers have observed the expanding thermonuclear fireball from a “nova” that erupted last year in the constellation Delphinus. The observations produced the first images of a nova during the early fireball stage and revealed how the structure of the ejected material evolves as the gas expands and cools. The results of these observations, carried out by a collaboration of 37 researchers from 17 institutions and led by Georgia State astronomer Gail Schaefer, are published in the current issue of Nature.

A nova occurs following the buildup of a thin layer of hydrogen on the surface of a white dwarf—a highly evolved star with the diameter of the Earth and the mass of the Sun. The hydrogen is provided by a close companion, which is a normal star, in a binary star system where the

two stars orbit about their center of mass.

As shown in the accompanying artist’s concept, the normal star sheds a small amount of its mass through a stream onto the white dwarf’s surface that gradually builds up a hydrogen “ocean.” When that ocean is about 650 feet deep, the enormous surface gravity of the white dwarf produces pressures at the bottom of the hydrogen layer sufficient to trigger thermonuclear fusion—essentially a stellar H-bomb.

In a typical nova, the light from the explosion will significantly exceed the star’s normal brightness and the object may suddenly appear to the naked eye in a location not previously noted to have a bright star. Over ensuing weeks, the star slowly fades as the fireball expands, cools and dissipates. Surprisingly, this seeming cataclysm on the white dwarf’s surface has no real effect on the star or its companion, and the

flow of material will resume so that the detonation will likely repeat at a future date.

Because these objects are generally very faint until the explosion occurs, they do not appear on classical star maps. Instead, a “new” star suddenly appears where there was none before. The famous 16th-century Danish astronomer Tycho Brahe described this sudden appearance of a star in his 1572 book De Stella Nova, and the Latin “nova” for “new” became attached to this phenomenon.

On August 14, 2013, the Japanese amateur astronomer Koichi Itagaki discovered a “new” star that was promptly named Nova Delphinus 2013. Within 15 hours of the discovery and within 24 hours of the actual explosion, astronomers at Georgia State University’s Center for High Angular Resolution Astronomy (CHARA) pointed the telescopes of the CHARA Array, located on the grounds of historic Mount Wilson Observatory

in the San Gabriel Mountains of Southern California, toward Nova Del 2013 in order to image the fireball and measure its size and shape. The size of the nova was measured on a total 27 nights over the course of two months; the first measurement represents the earliest size yet obtained for a nova event. The CHARA facility uses the principles of optical interferometry to combine the light from six telescopes to create images with very high resolution, equivalent to that of a telescope with a diameter of 1,000 feet. This makes it capable of seeing details far smaller in angular extent than traditional telescopes on the ground or in space. It has the power to resolve the size of a U.S. nickel on the top of the Eiffel tower in Paris from the distance of Los Angeles, California. •

Lawndale Can't Keep Up With El Segundo

Chris Murray (Lawndale #12) runs upfield, only to meet Shane Pelt (El Segundo #44). Photo by Dirk DeWachter.

By Joe Snyder

Already having its best league record since the earlier Lawndale High football days of the 1970s, the Cardinals started off with a 3-0 Ocean League record but were heavily challenged at highly regarded El Segundo in the league showdown last Thursday.

It was also to be a matchup between two of the South Bay's top quarterbacks in returning senior all-CIF Southern Section player and Major Division I college prospect Lars Nootbar of the Eagles and Lawndale's upcoming junior Chris Murray.

The veteran Nootbar and company, however, had too much experience and maturity for the Cardinals as El Segundo upped its unbeaten records to 9-0 overall and 4-0 in Ocean play by pulling away for a 35-14 win. The victory enabled the Eagles to clinch, at least, a share of the league title for the second consecutive season. Last year, El Segundo won the Pioneer League crown and made the Southern Section Northwest Division final before losing at Nordhoff 49-21 in Ojai. Currently, the Eagles are ranked second, behind top rated and Pioneer League leader West Torrance (also unbeaten at 9-0 overall and 4-0 in league after defeating cross town rival South Torrance 31-12 last Friday at West), in the Southern Section Western Division.

Lawndale (5-4 overall and 3-1 in league) was in the game at halftime, trailing 21-14, but El Segundo pulled away with two additional touchdowns and shut out the Cardinals in the second half. The Eagles started fast in the third quarter as it went 83 yards on 12 plays that was capped by a 24-yard TD run from senior running back Miguel Wagner-Bagues giving El Segundo a 28-14 advantage.

The Cardinals' first drive of the second half ended unsuccessful after the Eagles' Jack Barone sacked Murray deep in Lawndale territory. That forced the Cards to have to punt from their own end zone, but a bad snap was picked up by Murray who ran 13 yards but it was short of a first down. On top of that, Lawndale was penalized on the play giving El Segundo the ball at the Cardinal 12-yard line. The Eagles needed only two plays to score on an 11-yard run by Taz Tauaese.

Neither team scored in the fourth period but Lawndale attempted to get closer as it reached the red zone (inside the El Segundo 20) twice only to turn the ball over on downs each time.

Wagner-Bagues had a big game for the Eagles. He scored four touchdowns, three of them rushing. He ran for 57 yards on 14 carries. Wagner-Bagues also had a 21-yard TD reception from Nootbar, who completed 10 of 15 passes for 126 yards and one touchdown.

Murray ran for 91 yards on 19 carries and completed eight of 14 passes for 70 yards. He neither scored nor had any account for a touchdown. Running back Austin Manigo, who carried the ball 12 times for 35 yards, scored both Cardinal touchdowns on runs of 16 and eight yards in the first half.

"El Segundo was a little bit more physical than us," Lawndale head coach Rick Mathieson said. "Hopefully we'll learn a lesson. In the playoffs (which Lawndale should make), we'll be playing the likes of West Torrance, Palos Verdes, Redondo, Ventura, Pacifica of Oxnard and Oxnard. We'll have to really step it up."

The Cardinals hope to ensure a spot in their first playoffs in their "Lawndale High Part II (2002-Present) History" when they close Ocean at home against Centinela Valley School District rival Hawthorne Friday at 7 p.m. Overall, Lawndale last made the playoffs in 1980 (the Part I school's last season of 1959-81).

INGLEWOOD IS ALIVE IN BAY

Inglewood High's football team is suddenly in position of a CIF-Southern Section Western Division playoff spot after rallying for a 40-35 win over Peninsula in a key Bay League game last Thursday at Coleman Stadium. De'Juan Tyson scored the winning touchdown on a 16-yard run for the Sentinels (3-6, 2-2) with eight seconds left in the game. Tyson sparked Inglewood by rushing for 260 yards and three touchdowns. He also had a 37-yard reception that set up his winning score.

Tyson's winning TD came just 34 seconds after the Panthers (3-6, 1-3) took a 35-32 lead on a nine-yard scoring pass from quarterback Daniel Schubert to Andrew Phillips. The Sentinels will look for a shot at the playoffs when they face cross town rival Morningside (4-5, 0-4) Friday at 7 p.m. at Coleman Stadium. The Monarchs lost at Mira Costa 49-19 last Friday.

DESPITE GOOD EFFORT, LEUZINGER FALLS SHORT

Leuzinger High's football team played a very good North Torrance team tough only to fall short 35-20 in a Pioneer League game last Friday at Leuzinger. The Olympians (3-6, 0-4) were tied at 14 at halftime only to see the Saxons (6-3, 3-1) pull away by outscoring the 21-6 in the second half.

Khalil Miller scored on runs of seven and 11 yards, and Nathaniel Vaughn had a six-yard touchdown run for the Olympians. Leuzinger will seek to close its regular season with a win as it hosts Compton Centennial in an attempt to stay out of the Pioneer cellar Friday at 7 p.m.

CULVER ROUTS HAWTHORNE

Hawthorne High's football team sought its second Ocean League win for the first time in 10 years but it was dashed by previously winless Culver City 35-10 last Friday at Hawthorne. Paris McDaniel scored the only Cougar touchdown on a 25-yard reception in the fourth quarter. Hawthorne closes at second place Lawndale Friday at 7 p.m. •
