

Pets Without Partners

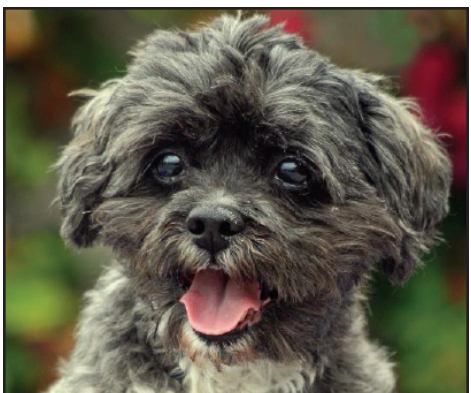

Tibbie

Chiquita

Sally

Unitas

She is fully grown at 10 pounds and her age is estimated to be around two-years-old. She is friendly with everyone she meets and good with other dogs as well. She was found as a stray and her owners were never located. Sally is both housebroken and cat-safe. She is very sweet, enjoys sitting in your lap and loves lots of pets and attention. This is a dog that will need to be on a grooming schedule, so please remember that when budgeting for a dog. Sally is current on her vaccinations, microchipped and spayed.

Unitas is a 10-pound, 10-year-old Lhasa/Apso mix. This little guy is a tough little trooper--he went from a home life in Eagle Rock to somehow living on the mean streets of South LA. We found his owner, who said he did not want Unitas anymore. The poor little guy was very dirty, smelly and not looking good when found. But despite it all, he was still energetic and curious about everything that was around him. Unitas is now healthy, clean, groomed and a totally different-looking dog. He is good with other dogs and very happy-go-lucky in his personality. He would love to lounge next to you while watching TV, and he is up for a walks as well. He loves to be on-the-go and is good in the car. Unitas is neutered, current on his vaccinations, and microchipped. Unitas is fostered by one of our fellow adopters; please read more about him under "Private Adoptions" on our website.

This adorable group of guys and gals is sure to win your heart...

Tibbie is an adorable little purebred Tibetan Spaniel. He is somewhere between seven and eight, and this breed is known to live a long time... up to 18 years. Tibbie weighs about 12 pounds and he is fully grown. He has a fantastic little personality, likes other dogs, is totally cat-safe and loves people. Tibbie is great on walks and loves car rides. He is a pretty mild-mannered guy who would make an easy transition into any home situation. Tibbie is housebroken and looking to make someone a lifelong companion. He is current on his vaccinations, microchipped and neutered.

Chiquita (aka "Chickie Babie") was owner surrendered by her family when their house foreclosed on them. They could not bear to take her to the city shelter and we are so glad they didn't. Chickie Babie is six-years-old and fully grown at 11 pounds. She is a wonderful, no-issue dog that fit right into her foster home. She is 100 percent housebroken and gets along very well with other dogs, both male and female. She is a lounge and a sunbather. She has a very sweet, easygoing personality, bonds easily and just loves her humans. She is well worth meeting if you are looking for a small dog. She sits at her foster mom's feet when she on the computer and on her mom's lap when she watches TV at night. Chiquita would make anyone a lifelong, true blue friend. Chiquita is current on her vaccinations, spayed and microchipped.

Sally is a very sweet little purebred Maltese.
