Drago

Krystal

Matty

Ursa

“Until one has loved an animal, part of their soul remains unawakened.” –Anatole France.

Krystal reminds us of a little fawn. She was born around September 1, 2008 and currently weighs nine pounds; she will remain a small dog. Krystal is very friendly with other dogs and gets along fine with dogs her size and slightly larger. This darling girl is

wonderful on walks, good in the car and a great little eater. She is housebroken with a doggie door or an open door, and is cat-safe. Krystal would do best in a home with children over the age of five. She is current on her vaccinations, spayed and microchipped.

Drago is one very cool dude who is a gorgeous, steel blue, purebred Great Dane...

and great he is! He was born on April 28, 2008 and presently weighs 112 pounds. He is a finicky eater and could easily stand to gain a few pounds. Drago was tearfully owner -surrendered by a family that just did not have the time to spend with him it felt he deserved. He was sent away as a six-month-old to boot camp at Hollywood

Dog Training School. Drago can sit, shake, lay down and heels nicely on leash. He is housebroken and barks to go outside. He is still a one-year-old puppy at heart and loves to run and bounce around and play. He loves his toys and the company of people, and loves to play with other dogs. He is cat-safe, too! Drago is current on his vaccinations, microchipped and neutered.

Matty is a very sweet, energetic Wheaten Terrier mix. Her tail wags non-stop! She enjoys taking walks and loves to cuddle up with you or just spend time with you at home or in the yard. Loving everyone she meets, Drago is friendly with other dogs and does fine with kids. Drago is housebroken and knows how to use a doggie door. She will “sit” when you tell her to and she knows the command, “Off!” She would rather play with another dog than with toys. Drago is current on her vaccinations, microchipped and spayed.

Ursa is one of the most friendly, well-rounded Tibetan Mastiffs you will ever meet. We literally had to buy her from a hoarder in order to save her life. Ursa is safe with us now and she is a gem of a dog... friendly, sweet, happy-go-lucky and beautiful! Although she is a little thin at present, she is eating well, gaining weight and loves everyone she meets. She is friendly with all other dogs, is cat-safe, loves children and is housebroken. Ursa loves toys, especially if they squeak. Have you ever owned a Tibetan Mastiff? They are wonderful dogs... come and meet her and fall in love. Ursa is current on her vaccinations, microchipped and spayed.

Did you know?
The average age of a home in Los Angeles is 50 years. The average power demand for a home during that era was about a third of what it is today. The added stress on older electrical systems can cause:

- Problems with expensive electronics
- Electrical System Failures
- Unexpected power outages

Upgrading your electrical service today will:

- Increase the value of your home
- Save money in costly electrical repairs
- Give you peace of mind
