

BIPRO – 2009

We would like to thank our neighbors for again voting us “Best Computer Store” now for the ninth consecutive year! We feel honored and truly blessed to have such loyal customers. We love being a part of this community!

We’re a local family-owned computer store celebrating our 27th year in business. Well-known for providing top quality computers at discount prices, we also repair and upgrade older systems. Our experienced staff provides expert advice and personal service. We’ve sold or repaired tens of thousands of PC’s for local residents and businesses!

We keep on top of the latest trends in home entertainment, gaming, business and networking technology. Our new computers are tops in reliability and come with three-year warranties. If your old PC gets an infection, we can clean off viruses and spyware without losing your important files.

We invite you to check out our showroom

with multimedia display, surround sound, wireless connectivity, internet movies & email and more. We’ll show you how to get the most out of your PC.

Low prices, quality products and personal service – we’ll keep offering them, and we truly appreciate your support year after year. Check out our latest specials at www.bipro.com!

**CONGRATULATIONS
2009
BEST OF THE BEST
WINNERS!**
