

Pets Without Partners

Sherman

Wilson

Thirteen

Want a friend for life? Adopt a pet without a partner!

Sherman was scared, shut down emotionally, curled up in a ball in the corner of his kennel, and afraid of his own shadow at the Downey shelter. We went in to greet him and we were smitten in every way. We knew he did not belong at the shelter. Sherman would be safe with us as our next rescue, so we got him out of there. Sherman is a work in progress, a true diamond in the rough. Sherman came to us with his head hung low, barely walking, and with no self esteem. We had to drag him out of his kennel and he cringed when we pet him. Well, you've got to see him now! Sherman wags his tail, raises his head when greeted, goes on daily walks, loves to be petted, loves dog treats, and his spirit and outlook on life have greatly improved. He is very friendly, lovable, passive, and is going to make someone a wonderful dog, pet and companion. We are looking for someone with power breed experience to adopt Sherman. We want Sherman in an all-adult home, so "children" over 18, please. Sherman needs you to be able to spend some good solid time with him as he settles in to your home. He is great during bath time, a great eater, fine with all other dogs and is cat-safe. Sherman needs eyelid surgery on both eyes, which will cost us over \$1,000. He is currently sponsored by Karen Plinko from Pennsylvania, Kerry Tsakonas in memory of her Lab and William Plourde in honor of his dog Bodie. Sherman is current on his vaccinations, microchipped and neutered.

Thirteen is an amazing puppy and survivor. She is the runt of the litter and one tough cookie. Thirteen with her mom, dad (Wilson) and her siblings who were born on July 1, 2009 in a field, survived a heat wave on their own. Thirteen is a very loving, sweet, silly, playful, outgoing and well-adjusted puppy.

This adorable girl is an avid tail wagger and full of spunk. She weighed four pounds as of September 27. Thirteen is current on her vaccinations, has been de-wormed, microchipped and will be spayed soon.

Now meet Thirteen's dad, Wilson. Wilson is a remarkable father, survivor, and one of the sweetest dogs we have ever had come through rescue. He is a Miniature Pinscher and Chihuahua mix who is approximately one to two years old and weighs about 13 pounds. He is fully grown. Wilson is very mellow, is interested in everything that is going on around him, and is just a love of a dog! He enjoys his daily walks, is fine with other dogs, is a fantastic eater, and he just loves people. Wilson is a must see... you will fall instantly in love. His personality will win you over. Wilson is in foster care where he is 75 percent housebroken with an open door. Wilson is current on his vaccinations, microchipped and neutered.

To learn more about these and other wonderful dogs and cats, visit our website at www.animalsrule.org. Or come to our Saturday adoption events from 11 a.m. to 3 p.m. at 305 North Harbor Boulevard, San Pedro. Look for the big, red, brick building just past the corner of O'Farrell. Our website is always current. If the dog's picture is on this website, it is still available. E-mail is the best way to communicate with us: info@animalsrule.org. We are always in need of donations for veterinarian bills and our senior dogs. Donations can be made through our website or by sending a check payable to: Animals Rule Placement Foundation at 305 North Harbor Blvd. San Pedro, CA 90731. All donations are tax-deductible. We are a registered 501(C)3 non-profit organization.

Saving one animal won't change the world, but the world will surely change for that animal.

Happy Tails

Moose found happiness at last

Moose was a *big* love of a dog with a special love of children. He just needed a little more time for his forever family to find him. Rescued out of danger from the county shelter by an Animals Rule volunteer and then sponsored for the care he needed by supporters Gary and Sandy, Moose got that extra time. Now, home at last with his boys, Moose's family sent us this update....

"Hello there. So far, Moose is doing really great. He is finally settling into his own. He loves that bed! The boys love him and he is doing really well with them. We've been going on nightly walks and so far so good.

We know Moose does like little dogs. He initially tried to stay on the couch and had to be picked up off of the couch, but other than that he's great. Thank you so much for allowing us to bring him to our home. We appreciate your dedication of care and concern for the animals you place in their new homes and the follow up they receive from you. For the most part I believe Moose has adjusted well and enjoys his new home. He is wonderful with the boys, very patient and gentle. Everyone loves him when they meet him because he is so cool and laid back. Talk about lazy...Moose sometimes feels the need to take a break during our evening walk to lay down and lick the grass, which I think is pretty comical.

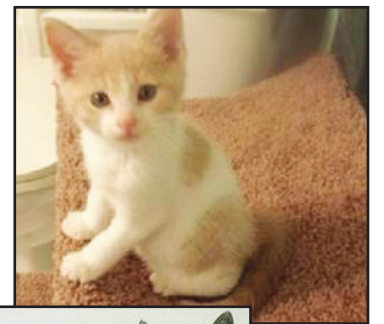

Today the weather was just beautiful, and he was sunning himself in the back yard when I left for work. He didn't bother getting up to say goodbye, just thumped his tail.... Jeremy, Jamie, and family "

When you help or adopt a "pet without a partner", you will forever make a difference in their life and they are sure to make a difference in yours. •

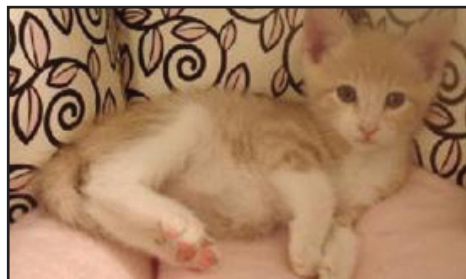

Purrfect Companions

Kyra

Nuts

Piper

Starbuck

If you are looking for your purr-fect companion, Kitten Rescue has several weekly adoption events for you to meet these and many, many other wonderful cats and kittens. Email us at eskittycare@yahoo.com for more information on a location near you!

Starbuck is the proverbial curious cat. The world is his playground and everything is a toy. That includes other cats' tails, much to their consternation. Although Starbuck is a very active cat, he is also gentle and loving. If you sit down to watch TV, you'd better make sure the remote is at hand, because you'll soon have a cat glued to your lap. Starbuck gets along well with other cats. In fact, he'd love a feline companion for endless games of pounce, chase and wrestle.

Nuts and his brother Piper are beautiful buff and white kittens! Nuts' color pattern is spotted while his brother Piper's is Tabby-striped. They are a super-cute pair, both visually and personality-wise – they are playful, energetic, cuddly little boys and total lovers! Nuts is a little leader and takes the initiative in play with his brother and with his foster mommy. He loves to bat a ball around, or better yet, a crumpled piece of paper. Piper is a little sweetheart with a loud monster purr that he loves to turn on when he is being petted or cuddled. Piper is also a little daredevil and he loves to jump. Unlike Nuts who likes to know where he will put his next paw, Piper is willing to take a flying leap and see where he goes. Nuts and Piper are fun to watch as

they play together, wrestling and chasing one another. They both love to run and greet their foster mom when she walks into the room, and they can't wait to cuddle and give her some love. They both love belly rubs and they melt into your arms and make cute little sleepy cat faces when they are tired. These little boys will bring a lifetime of joy to your home and are just the perfect pair! It is a preference to adopt Nuts and Piper into a home together. However, either can be adopted out alone as long as they are going to a home that already has a young kitten/cat who is looking for a friend.

Kyra is a beautiful, dilute Tortoiseshell. Found in a dumpster as a baby, Kyra is a sweet girl who purrs as soon as you touch her. She loves to play and more than holds her own with the big boys. She likes to sleep on you and give kisses, and especially likes to curl up on your chest. If you have a kitten or cat who needs a playmate, Kyra is waiting to meet you.

These kittens/cats are available for adoption through Kitten Rescue, one of the largest cat rescue groups in Southern California. All of our kitties are spayed/neutered, microchipped, tested for FeLV and FIV, de-wormed and current on their vaccinations. For additional information and to see our other kitties, please check our website www.kittenrescue.org. You can also email us at mail@kittenrescue.org to find out more about this week's featured pets and to contact us about adoption. •
